

## INVITATION

*We are participating in the ISEN 2023 Poster presentation to be made available on May 21, 2023. For registered members who are there in the premises at San Francisco, USA, the poster can be viewed at the exhibition hall.*

[ISEN: Welcome to the International Society for ECT and Neurostimulation \(isen-ect.org\)](https://www.isen-ect.org)

### TOPIC:

***Use of wireless technology and ECT:  
Engineering perspective***

*If you are registered for the ISEN 32nd Annual Meeting this Sunday, May 21<sup>st</sup> 2023 ....*

- This event is restricted to registrants only. To gain access, follow this [link to Slido.com](#) and enter your Full Name and the Email Address that you used to register for the event.*
- The livestream will begin at 8:15am PT with an Update on the Society, followed by Welcome and Opening Remarks.*
- The first educational session will begin at 8:30am PT.*
- Video recordings from this event will be made available to registrants approximately one week after the event. Please note, however, that continuing education credits can only be claimed by registrants who participate in the event live, whether that be in person or online.*
- ISEN will use Slido to facilitate Q&A Sessions at the Annual Meeting.*
- Event presentations will be made available digitally and can soon be located in your ISEN account profile. All registrants, including non-members, have a profile.*
- After the event, ISEN requests that all attendees complete the event [evaluation](#). Upon completion of the evaluation, you may download and save/print a certificate indicating either the number of continuing education credits earned or proof of attendance.*
